### Work Offered

This offer is available for undergraduate students of Transportation and Highway Engineering who are in final semester of their career. The student will be working with the i-MOVyT research group of Transportation and Highway Engineering of UPTC. The objective of the internship is to help with data processing, analysis of information, experiment design, information design and gathering protocols of the Light Vehicle Simulator. The student will be in touch with students, researchers and professors of the Transportation and Highway Engineering. At the beginning of the internship, the supervisor of the practice will introduce the team members and the specific tasks that must be developed during the internship. Due the pandemic and the institutional measures, the internship will be developed online (remote).
